BOTH DAYS

STC 2010 Poster Session complement the main conference program by offering an opportunity for practitioners to present ideas, results and obtain feedback from their peers in an informal setting. It gives conference attendees a way to learn about novel on-going research projects, whose preliminary results are already interesting.

Their informal presentation and an interactive format will allow you to engage in one-on-one or small-group discussions with the presenters. Visuals will be in the form of posters. Posters are not intended to be a forum for commercialization and marketing of a product/service. All posters will be at a specific space in the exhibition area during the conference. Authors will be at their assigned space to present their work to the delegates at the designated hours on both the conference days.

The following posters will be displayed throughout the conference and will be presented on Monday, November 22, 11:00 am - 5:25 pm and on Tuesday, November 23, 2:15 pm - 3:30 pm, Esquire Hall.

Each poster has been assigned a poster number (corresponding to the display boards).
